INTERNATIONAL RAM BEGINS OPERATIONS AT SACRAMENTO INTERNATIONAL AIRPORT

AUSTIN, Texas, May 5, 2006 – In a continuing tradition of providing accountable passenger assistance to the flying public, International RAM Associates is proud to announce operations beginning May 1, 2006 at the Sacramento International Airport.

"We are excited about being in Sacramento. Our level of commitment is matched with our enthusiasm and we look forward to working with Southwest Airlines and the airport authorities in the Sacramento airport," said Chris Mashburn, RAM's chief executive officer. "Sacramento is a world class airport, in a great community and we look forward to being involved in the aviation industry there."

As a partner to many of the country's largest airports and airlines, International RAM Associates has extensive experience providing passenger assistance, skycaps, identification verification, baggage handling and passenger screening services. RAM's roster of clients includes Southwest Airlines, American Airlines, Delta and many other carriers, and the company's unparalleled customer service is well-known throughout U.S. airports. RAM's goal is to provide a qualified, trained and motivated workforce capable of delivering the level of customer service that the airlines and airport would deliver themselves.
