International RAM Associates Announces Technical Services Group

CHANTILLY, VA , DEC.15, 2006 – International RAM Associates (RAM) is proud to announce the formation of RAM-Technical Services Group (RAM-TSG), providing electronic and physical security solutions to aviation, commercial, and government clients. RAM-TSG is comprised of industry professionals bringing over 30 years of experience in the design, fabrication, installation and maintenance of security and IT solutions. RAM-TSG provides clients with a full range of support in developing and implementing security and technology solutions in the following areas:

Services include:

- Security Technology Consulting
- Operation/Command/Emergency Center-Design, Build & Staff
- Software Development
- Value Engineering
- Integration Services
- Program/Project Management
- Contract Management Services
- Maintenance Services
- Product Life-Cycle Management
- Training and Documentation Requirements
- Security and Vulnerability Assessments

Systems include:

- CCTV/Digital Video Recording Systems
- Perimeter Protection Systems
- Wireless Systems
- Identity Management Systems
- Access Control/Badging and ID Systems
- Network Management Systems
- Rapid Deployment/Man Portable Systems

RAM-TSG is under the leadership of RAM Vice President of Technology and Systems Scott Beamer , and RAM-TSG Vice President Sam Brunetti who each bring over 20 years of aviation security experience, particularly focused on security technology integration and system design. RAM-TSG is based in Chantilly, Virginia .
